Birzeit Univerity

Work Experience

Freelancing Web Application

I built a web application for BaronSolarSystem Co. to help the manager in tracking the statues of the devices he uses in building a solar system for his clients.

Technologies used in the application:

- BackEnd : Java, Spring MVC , Spring security, JPA, Hibernate, Maven
- DataBase: MySQL RDBMS
- FrontEnd: Html, CSS, Bootstrap

Skills:

- Data Analysis
- Good Problem Solving
- Clean Code
- Time-management
- Good Communication skills with clients
- Willingness to understand the full life cycle of a software development

Languages:

- Arabic : Fluent in writing and speaking
- English : Very good in writing and speaking
